

Scottish Studies

Level 3, 4 or 5

The Scottish Studies Award provides opportunities for learners to develop their knowledge and understanding of Scotland — its people, languages (such as Scots and Gaelic), society, culture, natural environment and heritage — and to make connections across the curriculum. The Award also provides recognition for learners who choose to make these connections by studying aspects of three subject areas in a Scottish context.

There will be four sections of the award that we focus on:

- Scotland in Focus - a research project on a chosen aspect of Scotland
- Scottish History - The Wars of Independence
- Travel & Tourism - Destinations and attractions across Scotland
- Modern Studies - Social issues within Scotland
