Dear Parent/Carer

S1-3 Careers Feedback

At Lornshill Academy, preparing young people for employment is a core element of our careers work. In working with our key partner's we aim to offer comprehensive support, allowing pupils to take ownership in shaping their own future from S1 to beyond school.

On Monday the 1st of March all S1-3 pupils will be invited into a new Google Classroom, 'Lornshill Careers'. Pupils will have access to specific career education work focused on supporting all young people in engaging with their individual pathway.

This stand-alone unit of work is the beginning of a careers focus which will take a significant part in our curriculum in the next academic year. Work will be issued every Tuesday for all pupils and should be completed and submitted by the following week.

To support this, I will produce a Loom video resource which will guide young people with how to complete the assigned work. There will also be a live interaction for each year group (day and time included below). The short video attached in the link below give further information on the work and how to access it.

<https://www.loom.com/share/1db3c00c914248a19bd354c2155ceaa3>

We are always keen to hear some feedback from you and our young people. At the end of the four-week programme, I would be extremely grateful if you could complete the feedback forms which I will send to you. This will ensure that we can tailor our work to best fit the needs of our young people and community and provide the best possible support for career pathways and progression.

Live interactions timings

S1: Thursday 11:00am

S2: Thursday 11:30am

S3: Thursday 14:00pm

Kind regards,

Stuart Hillis
