

Covid Vaccination Timetable-Children and young People

Update from NHS Forth Valley

20.04.22.

The number of Covid-19 vaccinations being offered to children and young people and the length of time between doses varies according to age and health conditions. This table provides a quick guide to who is eligible for each vaccine.

Children aged 5-11 are being offered appointments which can be changed if they are not suitable and young people aged 12 – 17 can attend clinics on a drop-in basis for any of the doses they are eligible to receive.

Information regarding this is available via the NHS Forth Valley Facebook page :
